COURSES

- Mobile system (GSM)   (from 15th Feb to 3rd Mar 2014).
- Microcontroller application basic training   grade: excellent   (from 30th Jun to 25th Jul2012).
- The Complete JavaScript Course 2023: From Zero to Expert! – **Udemy**

PROJECTS

E-commerce (Game Store):

web application developed using Node.js and MongoDB that allows users to browse, purchase, and manage video games. The application has a Store Page, a Cart Page, and a Wishlist. Admin users have special privileges to manage the store inventory. The application also includes an Express REST API with JWT authentication and authorization to manage user accounts. Cloudinary is used for efficient image storage, and the application follows an MVC architecture.

Code -https://github.com/HebaAli48/Front-end_E-Commerce.git

Code -https://github.com/HebaAli48/Back-end_E-Commerce.git

User's Albums:

simple Angular app with JSON Server backend for managing photo albums. Users can create accounts, log in, and perform basic CRUD operations on their albums and photos.
Code - https://github.com/HebaAli48/AngularUserAlbum.git

Social Media:

Express MVC application with user, post, comment and review management. Cloudinary integration for efficient image storage, Implements JWT authentication and authorization. Showcase of RESTful API development skills.
Code - https://github.com/HebaAli48/Node.jsSocialMediaProject.git

PERSONAL INFO

Birthdate: 4 Aug 1992   **Gender:** Female
